Carl -

I have prepared a draft extended outline (and presentation) of a proof-of-concept for a Portland Harbor combined T&F and food web model. I sent these documents to Eric and Chip and I think it's up to them to decide how and when they're distributed. As soon as I hear anything, I'll let you know.

Bruce

Subject: Paper on Proposed Portland Harbor Model

Bruce –

I heard through the LWG that you were planning on sending us a paper of some type on your proposed model for Portland Harbor. We would very much like to get that as early as possible before the May 2nd meeting. Do you know when we will be receiving that?

We also heard EPA would like some written questions from us on the modeling approach so that you might focus your presentation. We were hoping to provide more informed questions after seeing your paper, so again the sooner we have the paper, the earlier we could give you our questions.

Thanks in advance.

Carl
